PxPlus Suite Unix/Linux/MAC (per user)	€1,50	€3,08	€3,74	
ODBC	€1,25			

PVX Plus Continuous Care Plan (CCP) Terms and Conditions:

- 1. CCP is available for all development serial numbers (licenses) on all major product releases. The initial term of CCP is for one year after which it will continue indefinitely until discontinued either by PVX Plus or by the Client.
- 2. During the term of CCP, PVX Plus will provide the client access to, and activation keys for, all software updates and applicable major / minor releases of the PVX Plus software associated with the serial numbers on CCP. Client may install and utilize this updated software in accordance with the terms and conditions of the original license agreement for each serial number. Only those options covered by the CCP fee for each serial number are eligible for these updates. That is, updates made available for one serial number may not be available for other serial numbers that do not have CCP.
- PVX Plus will invoice CCP fees on a monthly basis (billing cycle) for each serial number covered. CCP fees are due and payable 30 days following the invoice date. Should the CCP fees not be paid within this period, access to software updates and activation keys may be withheld until PVX Plus receives payment of all outstanding fees.
- 4. You may withdraw any serial number from CCP after the initial one-year term by providing 30-day advance written notification. Termination becomes effective as of the next billing cycle. Once a serial number has been removed from CCP, it may be reinstated at a future date upon payment of all back CCP fees plus a 10% surcharge of the current cost of the software at that time. If reinstatement occurs within 30 days of the effective termination date, the surcharge fee will be waived. If you withdraw a serial number from CCP before the end of the initial one-year term, it will be considered terminated and no further software updates for that serial number will be made available.
- 5. Serial numbers may be enrolled on CCP for the initial term of one-year at any time subject to retroactive fees to the original purchase of the software or upgrade to current version.
- 6. Should any software upgrade, such as adding users or add-on components, result in an increase in CCP fees the increase will be effective as of the billing cycle following the upgrade. Upgrades do not affect the term of the CCP.
- 7. The CCP fees for a serial number are based on the number of users registered to that serial number.

All orders are FOB Hazerswoude Dorp

All prices are subject to change without notice.
